

QFA-EXT-D-2" Quilted Fiberglass Absorber

Sound Seal's Exterior Grade Quilted Fiberglass Absorbers reduce the reflection of sound waves by covering reflective surfaces with a suitably UV protected porous, sound absorbing product. QFA-EXT-D-2" consists of a heavy-duty vinyl-coated-polyester (VCP) facing on both sides of a 2" thick quilted fiberglass. Wall panels are constructed with grommets across the top and bottom, and are sewn with an exterior grade thread.

- Superior UV and weather resistance
- Available facing colors on quilt: gray, tan, black, off-white
- NRC rating 0.75

Applications:

Exterior Grade faced quilted fiberglass absorbers are used to reduce reverberant noise on permanent outdoor applications such as enclosing HVAC equipment, dust collectors or similar machinery behind a manufacturing plant where UV resistance is required. It is commonly installed over wood fencing or on brick or masonry walls of buildings adjacent to a job site or a noisy piece of machinery.

Product Data:

Description	Vinyl Coated Polyester (VCP) facing / 2" fiberglass batt Vinyl Coated Polyester (VCP) facing
Nominal thickness	2.0 inches
Temperature range	-40° to +180° F
Roll size	48" wide x 25' long
Weight	0.50 lb psf

Acoustical Performance:

Sound Absorption Performance:

Product	OCTAVE BAND FREQUENCIES (Hz)						NRC
